

SMART MOVING TIPS FOR HOMEOWNERS WITH PETS

While you might be ready to start an exciting adventure in a new home, remember that your furry family members may find moving to an unfamiliar place stressful. With some advanced planning, you can ease them into their new nesting place.

THE ESSENTIAL PET-FRIENDLY AMENITIES

While house hunting, consider the simple things that make life easy and comfortable for a pet, like:

- A Fenced-In Yard
- Hard-Surface Flooring
- Space for a Litter Box

UPGRADES FOR THE PAMPERED PET

Add a cushion of warmth with custom details that blend in with the home aesthetic. Look into:

- Pet Suites
- Washing Stations
- Beds
- Built-In Features Like Under-Cabinet Food Stations or Crates
- Electronic Pet Doors
- Remote-Access Security Cameras

PROXIMITY TO OUTDOOR RECREATION AND SERVICES

Pets need spaces to explore, exercise and get the care they need with ease. Consider how close the home is to:

- An Off-Leash Dog Park
- Nature Trails
- Veterinarian
- Boarding Facility
- Doggy Daycare

MOVE-IN PREPARATION

Before fully settling in, let pets explore the lay of the land of the new house, taking the time to:

- Show the Designated Spaces for Toys, Bed and Water
- Tour the Home a Few Times One Room at a Time

Considering these options can make your pet feel comfortable in a new place – and they will love the new home just as much as you do!
